Burrowing!

The player has a unique ability thanks to their bunny “hare”-itage: Burrowing!

Dig burrows that allow you to avoid enemies, bypass obstacles, and quickly teleport around the battlefield.

Be sure to use it to explore every cursed nook and cranny.

What does it do?

- ❖ Invincible while underground.
- ❖ Increases your movement speed by 50%
- ❖ You cannot attack while burrowing.
- ❖ You can travel to and from each burrow.
- ❖ Only one set of burrows can be active (initially)
- ❖ You can shoot at a burrow and the bullet will come out the other side.

Burrowing: How does it Work?

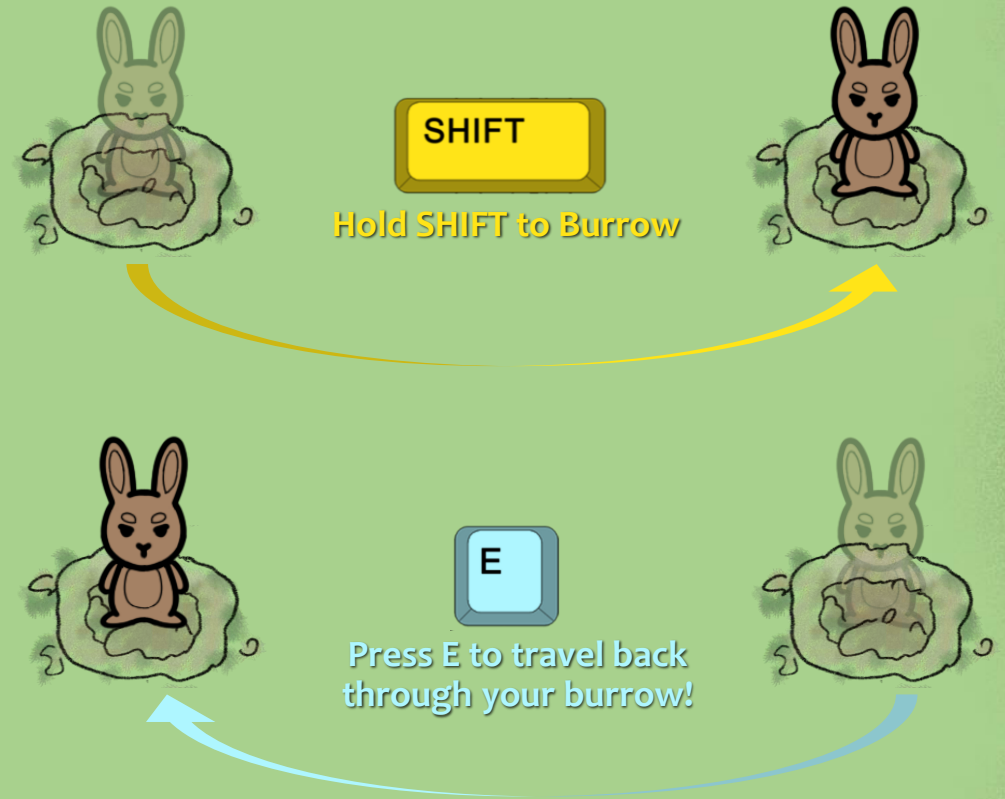

Burrow by holding SHIFT and moving around.

When you release SHIFT, a burrow will be created linking your entrance and exit points.

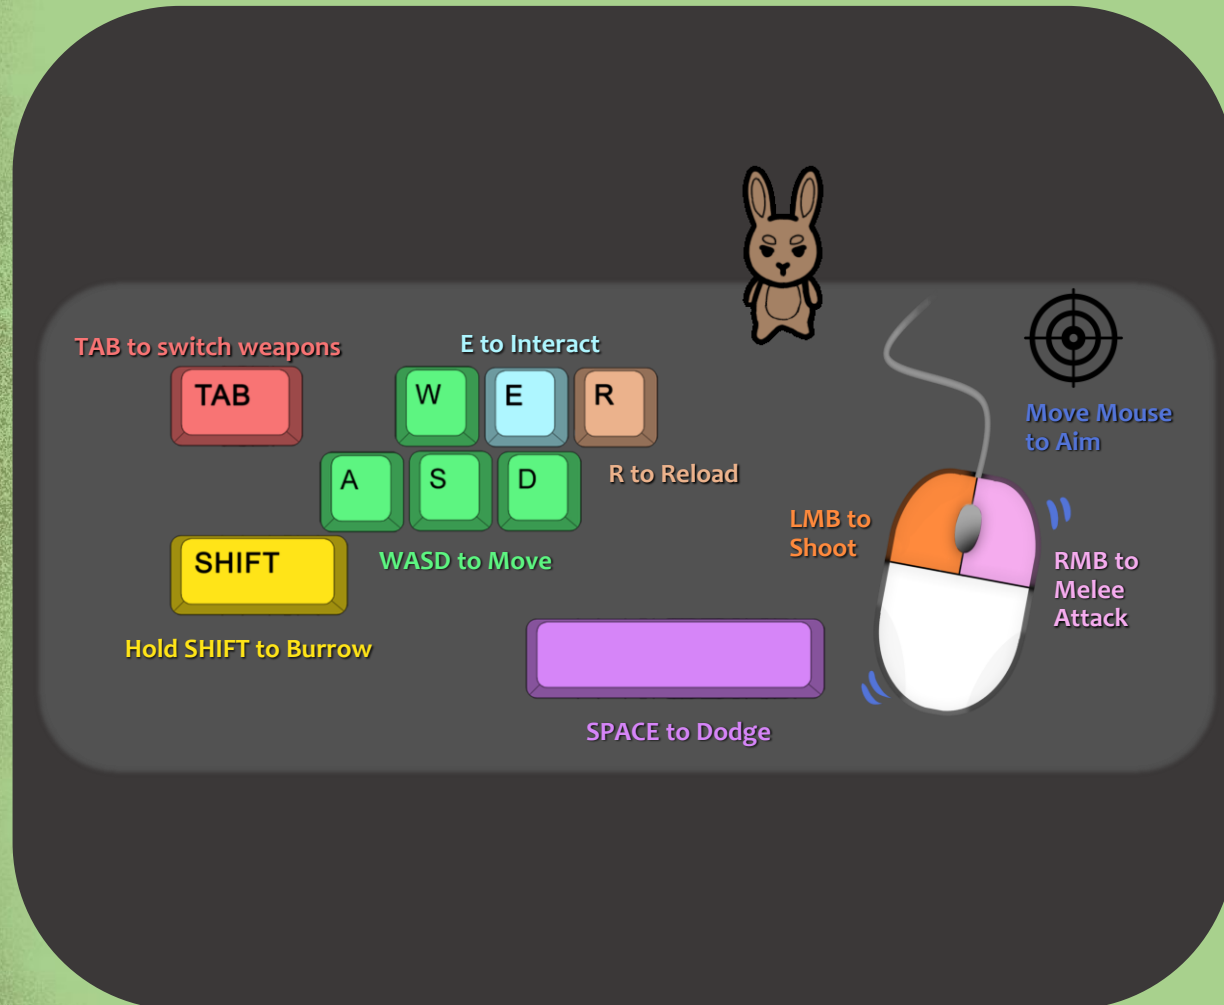

Travel back through a burrow by pressing E on it. Get the drop on enemies!

Creating a burrow removes your previous burrow.

You can only start burrowing with full Burrow Stamina, and you can only burrow until your Burrow Stamina runs out

Dodging and Attacking

- Attack with both melee and ranged using the two mouse buttons
 - ❖ LMB to shoot, RMB to melee attack!
- Dodge attacks by pressing SPACE
 - ❖ Move fluidly around the battlefield and quickly escape attacks!
- Switch Weapons by pressing TAB
 - ❖ Swap between weapons such as the slingshot, the revolver, and the cannon for dynamic combat!

Weapon Combos

The player will come across quite the range of weapons as they explore.

Whether it be through shops or from finding them across the cursed lands, there will surely be a gun that fits every player's playstyle.

Combo long-ranged weapons and melee weapons for devastating effects. Set an enemy on fire? Use the stick melee weapon to get a makeshift torch!

Experimenting with different weapon combos is key to getting out of Bunnyville alive and in one piece.
